VII. Reading Comprehension(@2/10%)閱讀測驗

Peter leaves America in1965 to work in Africa. Africa is hot, and when Peter comes back to America in1978, he says to himself, "It's much colder here than it is before I leave. I'm going to buy an electric heater. Also, everything is much more expensive."

Peter goes to a store the next day to buy an electric heater. The salesman shows him three or four kinds and they says, " This is our best electric heater. It costs a lot of money, but it saves half of our electricity, and electricity is very expensive now, isn't it?"

"Yes, it's very expensive," Peter answers, "and it's becoming worse every year." He looks at the electric heater carefully, thinks for few seconds and then says, "Well, I'll take two of these, please, and then I'll save *all* of my electricity."

55. How long is Peter in Africa?

He is in Africa for 13 years.

56. What does Peter want to buy when he comes back ?

He wants to buy **a heater**.

57. Why does Peter need a heater?

It's much colder in America than it is before he leaves.

58. What is the opposite meaning of the word "expensive"?

Cheap.

59. Can two heaters save all his electricity?

No, they can't. Two heaters can not save all Peter's electricity.
